

Job Description

Brewery Operations Technician

Purpose

Brewery Operations Technician performs a number of facility planning and maintenance related tasks on the production floors, grounds, warehouse, and taproom.

Duties

- Create and maintain routine maintenance schedules
- Perform ad hoc tasks in the field/facility and respond to any maintenance emergencies
- Help install/commission new equipment
- Maintain complete documentation of maintenance and repair work
- Attend to equipment repairs and problems promptly
- Work with Brewery Operations Manager on facility planning and implementation of process improvements to improve production efficiency, safety and quality
- Other duties as assigned

Requirements

- 21 years of age or older
- Previous work in compliance with safety and environmental standards
- Previous experience in facility planning and maintenance strongly preferred
- Must be a “hands on” person and able to trouble shoot problems
- Work efficiently and be self-driven
- Strong planning and organizing skills with the ability to manage multiple projects
- Strong communication and interpersonal skills as this position interacts with employees, managers and outside vendors
- Understanding of all equipment and operations
- Attention to detail

Physical Requirements

- Stand/walk during entire shift
- Lift/carry supplies in excess of 85 lbs and team lift up to 170 lbs
- The ability to reach, bend, crawl, and work in awkward positions and areas during a shift

Education Requirements

- High School diploma or equivalent
